Number one, too.

It probably comes as no surprise that Coke is the runaway number one selling soft drink in Canada.*

What may come as a surprise however, is the fact that diet Coke is already the number one selling diet soft drink in Canada.* And diet soft drinks is the fastest growing category in the soft drink market today.

With a great tasting one-two punch like Coca-Cola and diet Coke leading the way, it isn't any wonder that Coca-Cola Ltd. is the number one selling soft drink company in Canada.*

So if you want to be a number one too, make sure you start with Coke and diet Coke. And if you want to score a complete knock-out, include Sprite in your line-up.

Coke and diet Coke. One. and one, too.

*Based on the latest national survey of food store sales in gallons.

Both Coca-Cola and Coke are registered trade marks which identify only the same product of Coca-Cola Ltd. Both diet Coca-Cola and diet Coke are registered trade marks which identify only the same product of Coca-Cola Ltd. Sprite is also a registered trade mark of Coca-Cola Ltd.

Diet Coke is suitable for carbohydrate-reduced and calorie-reduced diets.

Film Classification
(a) General Entertainment — the content of these films should not be found offensive to the general public.
(b) Mature Entertainment — the word "mature" was a deliberate choice, designed to act as a guide to parents. The subject matter of a film in this classification or the way in which it is portrayed may not be appropriate for some young people. There is no age restriction for this classification, but warnings are often added.
(c) Restricted Entertainment — because of the nature or contents of these films, persons under the age of 18 are not allowed to attend unless they are accompanied by a parent or other responsible adult who must remain with the underaged person during the entire film. As a condition of admittance, the theatre has the right to require the accompanying adult to sign a form accepting responsibility for the underaged person. (Notes from parents giving permission for a child to see a Restricted film are not acceptable.)
(d) Warnings — to help the movie-goer to choose his or her entertainment, warnings about possibly offensive material are often added to the classification. These notes may include such statements as "frequent coarse language and swearing", "some nudity and suggestive scenes", or "occasional frightening and violent scenes".

Film Classification
Films are classified and censored to reflect the level of tolerance indicated by the community standards of the Ontario public. In Ontario there are four designations within the classification system:

"Family" — Films suitable for all.
"Parental Guidance" — Parents are advised that theme or content may be more mature than "family" films. However, children are permitted unsupervised access and the decision of film suitability lies entirely with the parents. Films in this category may contain limited violence, such as hand-to-hand fighting, the use of weapons without excessive bloodletting, retrained portrayal of accident or disaster. They may also contain scenes involving very brief or casual nudity, romantic involvement which is not sexually explicit. Mild use of coarse or vulgar language.
"Adult Accompaniment" — Restricted to 14 and over unless accompanied by an adult. (Suitable for 14 and over.) Theme or content may be more mature and in the opinion of the Board not suitable for most children 13 and under. Films in this category may contain limited nudity and sexual involvement. There may also be sexual innuendo, suggestive or vulgar dialogue, coarse allusion and offensive language. There may be a higher degree of violence including bloodletting. Violence and nudity will not be gratuitous but should be integral to the plot.
"Restricted" — Admittance limited to those of 18 years and over. Films may become restricted if they contain scenes of heavy violence, torture, or abuse, extremely graphic depiction of accident or horror, full nudity, sexual activity or undue use of offensive language. Films which promote controversial or antisocial lifestyles might also be restricted depending on format and force of presentation.
Eliminations: Each film is judged on its own merits. However, very graphic or prolonged scenes of violence, torture, bloodletting; explicit portrayal of sex/violence, e.g. rape, sexual abuse, sexual exploitation or children, explicit portrayal of sexual activity, undue or prolonged emphasis on genitalia and ill-treatment of animals would normally be considered to contravene community standards and are scenes for which eliminations would normally be requested.

Rejected: Instances of rejection of an entire film are very rare and would normally occur only where required eliminations were so extensive as to ruin the continuity of the film.
Although language code is generally set aside for Restricted classifications, extremes in dialogue or vocabulary are a concern.
Guidelines are under continual reassessment and review.

Editor's Note:

We are indebted to many sources— organizations and individuals— for information relating to this section. It is as accurate as the lists and figures supplied to us.

The population figures are from Statistics Canada, 1981 Census of Canada, Catalogues 93-901 to 912 (Volume 2, Provincial series), published June 1982.

Attention is drawn to the following:

+ =Census Metropolitan Area (CMA) — The main labour market area of an urbanized core (or continuously built-up area) having 100,000 or more population.

* = Census Agglomeration (CA) — The main labour market area of an urbanized core (or continuously built-up area) having between 10,000 and 99,999 population.

Note: Since a CA must contain a whole census subdivision, its limits may fall within, or extend beyond, the actual labour market area. The differences may be significant in those parts of Canada where census subdivisions cover particularly large areas of land.

Swatch Out!

Send for the New Cinegel Filter Book. FREE.

Cinegel is Rosco's Academy Award winning range of materials for light control.

Now, it's a more exciting series than ever. The range includes additions and reformulations specifically developed to meet the demands of the new film emulsions and light sources.

Among the nearly 100 materials in the new Cinegel swatchbook, you'll find filters for controlling fluorescents and the full range of arcs, as well as tungsten lamps. Included are 18 different diffusion materials and eleven metallized surfaces for reflectors. You'll also find that the technical data you need is included right in the swatchbook.

Be sure you have your own Rosco Cinegel swatchbook. It's a basic tool of the trade . . . and it's available free from your rental house, Authorized Rosco Dealer, or any Rosco office.

SHOOT US!

When you shoot on location in Calgary, Alberta, you've got some of the world's most spectacular scenery in your sights. Prairie grasslands, badland hills, Rocky Mountain peaks and rolling foothills – all located within 90 minutes' driving time from our dynamic city of 625,000.

Want some more good reasons to shoot Calgary? How about qualified film personnel – including actors, sound and light crews, camera personnel and extras – who gained their experience on movies like Superman III.

The diversity of accommodation, dining and business services we offer is another good reason, and we're easy to get to – with daily flights from Los Angeles, New York and London.

And we also offer you the services of a film industry office that will do EVERYTHING to make sure your on-location shooting clicks along smoothly.

Want more good reasons to make Calgary your next target for location shooting? *For more information or assistance with location searches, contact:*

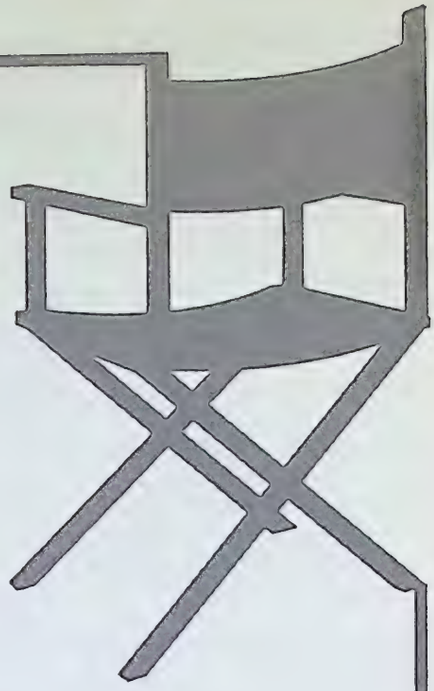
Hollywood experience & references

North America's Oldest Continuous Short Subject Film Festival isn't in Los Angeles. Or New York. Or Toronto.



It's in Yorkton, Saskatchewan.

And You're Invited.

A Showcase of Canada's Best in Short Film and Video

Since 1950, the Golden Sheaf Awards have recognized the best in short subjects. And we've kept pace with the industry, opening new competition categories such as music video.

Real Prairie Hospitality

Yorkton is a friendly prairie city that welcomes visitors with open spaces and open arms. It's a unique part of Canada that will show you what real prairie hospitality is all about.

A Unique Marketplace

The 24 hour Film and Video Marketplace gives film-makers and buyers a chance to meet face to face.

Plan to Be There in '85

If you're involved in the Canadian short film and video industry, the Golden Sheaf Awards have something to offer you.

Call or write for complete details on registration, entries, and special travel and accommodation packages.

Filmmakers use these adjectives and many others to describe Montréal, the Europe next door.

They are equally impressed with Montréal's no-nonsense cooperation with filmmakers.

Through a special city agency, CIDEM-Cinéma, Montréal provides a one-stop-shop for filmmakers, thereby eliminating red tape.

CIDEM-Cinéma does everything from scouting irresistible locations to arranging for the closing of public streets. It will find skilled crews for you and even brief you about tax shelter provisions.

And that's the way it should be in the city that hosts the Montréal World Film Festival – the only competitive film festival in America recognized by the International Federation of Film Producers Associations.

The Canada Council was created by an Act of Parliament in 1957 which was revised in 1977. Its mandate is to promote the arts, and it carries out its work mainly through a broad program of grants and services to professional artists and arts organizations. The Council also has some responsiblity for promoting Canadian culture abroad, and administers the Canadian Commission for Unesco and special programs financed by private donations. The Council reports to Parliament through the Minister of Communications and appears before the Standing Committee on Culture and Communications.

Film Production Grants
Applicants must have directed at least one film or have produced a body of work in video.
The Council requires that filmmakers have total editorial control over the proposed production. Films being produced, co-produced or sponsored by another federal or provincial government agency are not eligible.
The maximum amount available for a single film production is $40,000 to cover total or partial production costs.
Deadlines for receipt of applications are March 15, July 15 and November 15. Applicants are notified of the results of their application approximately ten to twelve weeks after these dates. Application forms are available from the Media Arts Section.

Other Grants
Professional filmmakers may be eligible for assistance through other grant programs administered by the Canada Council. These include the Aid to Artists Program (Arts Grants "A"; Arts Grants "B"; Short-Term Grants; Project Cost Grants; Travel Grants), and the Explorations Program.

Film Grants
Filmmakers may apply for up to $25,000 for the production of original 16mm films. (Experimental films are adjudicated separately.) All applications must be supported by a 16mm film. Fulltime film students are not eligible.

Writers may apply for up to $5,000 to write an original feature-length screenplay.

Sponsors of film festivals, seminars or workshops may apply for funds to cover fees of visiting filmmakers to participate in workshops or to lead discussion groups and to cover a portion of administrative costs.

Arts Education Grants
A filmmaker wishing to work in a school is required to conceive the project, find a school and negotiate a fee. The filmmaker and the school make a joint application for a grant of up to 70% of the filmmaker's fee to a maximum of $1,600; a maximum of $200 for project expenses; and up to $750 for travel and living expenses if the project is more than 100km from the filmmaker's home.

A Guide to Grants
This brochure contains useful overall information on the who, what and how of applying for OAC grants.

The Canadian Film Development Coporation (CFDC) was established by the Canadian Government in 1967 "to foster and promote the development of a feature film industry in Canada."

In 1983, the CFDC, now called Telefilm Canada, was asked to administer the multi-million dollar Canadian Broadcast Program Development Fund, making the Corporation the Federal Government Agency responsible for private sector development in both the television production and film industries.

The Corporation, which does not produce or distribute programming itself, carries out its mandate by working with indivudual production, distribution, and exhibition companies, as well as with Federal and Provincial Government ministries and cultural agencies.

The Canadian Broadcast Program Development Fund
On July l, 1983, The Government of Canada established a special Canadian Broadcast Program Development Fund intended to promote an increase in the quantity of high quality Canadian television productions in the categories of drama, children's programming, and variety. To achieve this goal, $254 million was earmarked to help develop and support the private sector television production industry in Canada: $34 million in the first year of operation, $50 million in 1984/85, $54 million in 1985/86. $56 million in 1986/87, and $60 million in 1987/88.

Other Assistance Available
Telefilm Canada offers five additional programs: the Script Development Program assists the writing of screenplays for feature films and TV drama by Canadian writers; the Interim Financing Program allows producers to commence production before all the equity financing is in place; the Equity Investment Program encourages the production of fiction or documentary films of a distinctly Canadian nature; the Promotion and Advertising Program supports the marketing and launching of individual theatrical feature films in Canada; the Test Marketing Program supports test marketing of individual Canadian theatrical feature films in Canada. Direct financial support is also given for various industry functions.

Co-Productions
Canada has official co-production treaties with eight countries: France, Israel, Italy, the Federal Republic of Germany, the United Kingdom, Belgium, Algeria and Spain. Such treaties allow producers from two or more countries to share in the creative, technical, and financial aspects of a production, at the same time enjoying the benefits accorded a national production in each country, such as direct aid, tax incentives, and quota systems.

Telefilm Canada, at the request of the Minister of Communications, is responsible for the administration of these treaties and those projects produced under them. The Corporation receives and evaluates project applications for recognition as official co-productions. Based on Telefilm Canada recommendations, the Minister of Communications either approves or rejects such applications.

While Telefilm Canada advises the Minster on all official co-productions, it does not necessarily participate financially in them. The Corporation's participation is based on a more detailed analysis of the merits of the production.

The Association was incorporated as a non-profit body in the fall of 1973. At that time it was a small group of Alberta film production houses which were the Active members, plus various Associate members. In its eleventh year, the Association has grown to include active members, corporate affiliates (suppliers, educational institutes, crown corporations, etc.) and associates (individuals who may not be engaged full time in motion pictures but who have a special interest in the industry, or individuals who are employees of active member companies and wish to be

personally affiliated with the Association). The total membership involves more than 500 people in the Association's activities. A quarterly magazine, in English, goes to members, associates, and the general public. Seminars and workshops are held several times a year, and the Association sponsors an annual film festival.

Each motion picture theatre in Canada, whether individual or a chain, is obligated to pay Performing Rights Organization of Canada Limited an annual licence fee for the right to perform music in its repertoire, or the repertoires of foreign performing rights organizations represented in Canada by PRO Canada. The licence fees have been collected from theatres on behalf of writers, composers and music publishers since 1966.
The fees collected must be approved annually by the Copyright Appeal Board in Ottawa. The courts uphold the fact that it is unlawful to operate a motion picture theatre in Canada without a PRO licence for the performance in Canada of its dramatico-musical works. Tariffs are printed in The Canada Gazette.
The following fees are up 4% over the 1984 fees:

Cinemas and Other Motion Picture Theatres
For a theatre licence covering operations at any time during the year, the annual fee is charged on seating capacity as follows:

Seats	Rates per seat per annum
499 seats and under	14.5 cents
500 to 799 seats	17.4 cents
800 to 1,599 seats	21.7 cents
1,600 seats and over	28.9 cents

The seating capacity of Drive-In Theatres shall be three times the maximum number of automobiles which may be accommodated at any one time.
Theatres operating three days or less per week shall pay one-half of the above rates.
For theatres operating for less than 12 months in each year, the fee payable shall be reduced by 1/12th for each full month during the year in which no operations occur.
Minimum fee: $13.90
A licence obtained under this item of the tariff shall not be deemed to authorize any concert, recital of classical music or live performances when the exhibition of one or more films is not an integral part of the program. These performances shall be licensed under Item Number 5 of the tariff.

Provincial Theatre Associations are listed under Exhibition

Variety in Action
In Ontario during the past six years, Tent 28 has raised and allocated close to 12 million dollars as its contribution to the "greatest children's charity in the world". Fund-raising activities include an Annual Bike-A-Thon, two Bingo operations, Annual Gourmet Dinner, a Golf Tournament, a Telethon, an Auction, and a Blue Jays ball game.
Tent 28 gives a large measure of financial support to the Variety Village Electro Limb Centre, Day Care program, and in January 1981 a new Variety Village Sports Training and Fitness Centre, was opened. Help also extends to a long list of diverse recipients - the research program of the Ontario Society for Crippled Children, the Hospital for Sick Children Cardiac Catheterization Lab, the Mount Sinai Hospital Ultra Wave Diagnostic equipment, the Ontario Community for the Deaf - to name a few.
The Toronto Blue Jays baseball team have designated Variety Club as their charity, and the Variety Club in Ontario is host to an annual "Baseball's Back In Town" luncheon on the eve of opening day.
There are now forty-four Variety Sunshine Vans in operation in Ontario, which are custom-built according to the disability of the children to be transported.
In recent years the food industry has become a great supporter of Tent 28 through their Cash-Fo-Kids program. In 1984 executives of the food industry estimated a contribution of over one million dollars through their efforts on behalf of Tent 28.

The next major project was the Paul Nathanson Centre for Children, a 23.5 acre estate in Maple, Ontario, donated by his widow, Sylvie Nathanson. A committee currently established its use as an autistic residential school.

ONTARIO FILM INSTITUTE
Ontario Science Centre
770 Don Mills Rd.
Don Mills, Ont. M3C 1T3
(416) 429-4100
Director: Gerald Pratley
Administrator: Sherie Brethour
The Ontario Film Institute was founded in 1969 to encourage the development of the art of the film and to foster public appreciation and study of film history, origins and accomplishments. It was further required to act as a clearing house for information on all matters affecting films in Ontario, in the country as a whole, and also abroad, particularly with regard to education and general knowledge.
The Institute is part of the Ontario Science Centre, situated on parklands in the Toronto suburb of Don Mills. It is financed through the Science Centre by the Ministry of Culture and Recreation of the Province of Ontario. As such it is a department of government. It is not affiliated with commercial film companies or interests in any way, but maintains harmonious working relations with producers, distributors and exhibitors.
The OFI has three divisions: the Institute itself, which is the reference and information centre, the Ontario Film Theatre, and the Ontario Film Archive. The Institute collects, preserves, organizes and makes available documentation on Canadian and international motion pictures - mostly feature films. There is a comprehensive book library, several hundred screenplays, a large collection of soundtrack recordings and tape-recorded interviews with film makers, and a periodicals section made up largely of leading English-language film journals.
The Ontario Film Theatre presents film showings covering a wide range of material and has become an established part of Toronto's cultural life with its seasons of films from abroad, directors' series, historical surveys and current cinema programs. The auditorium of the Science Centre functions as the Ontario Film Theatre in the evenings. It has 482 seats, translation booths, an ideal stage area for discussions, and a projection booth equipped with 16, 35 and 70mm projectors and the Dolby sound system.

The OFT also has the use of three l6mm viewing theatres at the Science Centre when required. There is also a Cinema Bar open on those evenings when directors or other speakers attend the showings of their films.
The Institute is prepared to assist all communities which desire to start film theatre programs, providing facilities are available and local organising committees are formed.
Quarterly publication: Film News; occasional publications of monographs on cinematic subjects (in English).
Collections of films produced by the Ontario government; other copies on deposit with the National Film Archive, Ottawa. Other films on video cassettes available for study on the premises.

The Academy of Motion Picture Arts and Sciences is an honorary organization composed of more than 4,500 motion picture craftsmen and artists.

Since its founding in 1927, the organization's stature has grown internationally until today the Academy provides unparalleled incentive for higher levels of technical and professional achievement among all branches of filmmaking and has become the cinema's most effective single ambassador.

It is widely recognized that the motion picture is one of our most important sources of information, education and entertainment. This, and the constantly rising artistic merit of films produced throughout the world, are due, in part, to the Academy.

The Academy is a non-profit organization whose field of activity does not include economic, labor or political matters.

PURPOSES

The purposes of the Academy are to advance the arts and sciences of motion pictures; foster co-operation among creative leaders of cultural, educational and technological progress; recognize outstanding achievements; co-operate on technical research and improvement of methods and equipment; provide a common forum and meeting ground for various branches and crafts; represent the viewpoint of the actual creators of the motion picture and foster educational activities between the public and the film industry.

HISTORY

The Academy was organized in May 1927 as a non-profit corporation, chartered under the laws of California. Its 36 charter members included production executives and film luminaries of the time.

The Academy moved into its present quarters in Beverly Hills in 1975. The seven-storey building includes the Samuel Goldwyn Theatre, Margaret Herrick Library, Administrative and Publications offices.

... A FEW WORDS

- The Canadian Film Digest YEARBOOK is published in late April each year
- It's been going strong, in one form or another, since 1915
- Entries in the YEARBOOK are free (that's right, FREE!)
- Advertising in the YEARBOOK is not free ... but it's reasonable and effective
- So – plan to advertise regularly in the YEARBOOK
- The YEARBOOK is the biggest fistful of information on all aspects of the film industry in Canada
- The best little bargain for everyone in the business of film

Affiliated with Association des producteurs de films du Quebec (APFQ).

The ACFTP was formed to speak for and serve the interests of Canadian film and television producers. Together with the Association des producteurs de films du Quebec, it now represents the majority of active, on-going, entrepreneurial Canadian production companies.
Its members are the companies which develop the projects, find the financing, negotaite with exhibitors, distributors and broadcasters and create the jobs by taking the risks inherent in producing programming.
Because its constituency is limited to the entrepreneurial producer it can respond swiftly and without qualification to those issues that affect its operations and its very livelihoods.
It acts as a clearing house for matters of concern to members and keeps members informed of policy, legislation and events that affect them. It is working towards providing a variety of services in response to industry needs.
It has a permanent secretariat in Toronto and enjoys reciprocal facilities with the APFQ in Montreal and formal links are being established with producers' associations around the world.

Membership
An Applicant must be an established Canadian business entity with permanent staff and/or office and must have produced feature films or mass audience television programs on a regular basis for the two-year period preceding application. Further, the Applicant must be entrepreneurial in nature as opposed to being employed for hire by other producers.
There is also a separate class of membership for those companies of like interests who do not necessarily qualify for full membership such as financiers, packagers or companies in production for less than two years.
Full membership fees:
Annual dues..... $600.00
Four quarterly levies..... $600.00
Associate membership fees:
Annual dues..... $1,000.00

1984 Board
President: Peter O'Brian
Vice-President: Allan King
Secretary: Rob Iveson
Treasurer: Don Haig
Executive Director: Samuel C. Jephcott

CAMPP was incorporated federally in 1973 to promote and foster the production of motion pictures in Canada; to develop and promote the interests of producers; and to provide its membership with technical and other information for the improvement of their knowledge, work and status.
As of January 1, 1985, the membership merged with the Canadian Film & Television Association/Association Canadienne de Cinéma-Télévision.

CANADIAN FILM & TELEVISION ASSOCIATION/ ASSOCIATION CANADIENNE DE CINÉMA-TÉLÉVISION (CFTA/ACCT)

Box 790, Stn. F.
Toronto, Ont. M4Y 2N7
(651 Yonge St., 3rd Fl.)
(416) 927-8942

The Canadian Film & Television Association (CFTA) was founded in 1948. CFTA has in excess of one hundred and seventy-five corporate members including production companies, commercial houses, animation studios, audio-visual specialists, laboratories, optical houses, videotape and sound recording studios, post-production facilities, distributors and suppliers to the industry.

CFTA represents over seventy-five per cent of Canada's independent film, tape and slide production industry, in annual sales volume and numbers employed. CFTA members supply their production and services to film and television broadcasting outlets in Canada and internationally, to advertising agencies, to private corporations and to government agencies. The Association is the representative voice of the private sector of this industry in Canada.

CFTA maintains a close working relationship with the regional industry associations including Alberta Motion Picture Industries Association (AMPIA), Association des Producteurs de Films du Quebec (APFQ), British Columbia Film & Video Industry Association (BCFIA), Manitoba Film Producers Association (MFPA), Saskatchewan Association of Motion Picture Producers (SAMPP) and as of January 1, 1985, incorporates the membership of the national feature film organization Canadian Association of Motion Picture Producers (CAMPP).

CFTA and CAMPP share a secretariat and a national Executive Director in Toronto and appoint local representatives across the country.

A LIST OF MOTION-PICTURE TECHNICAL TERMS IN FIVE LANGUAGES

Initiated by Carlos Connio Santini

Standardization of international usage in motion-picture language may not be possible, but mutual understanding of the technical terms used in the industry, in those language areas where its principal activities are carried on, is a worthy goal. The basis for this list was contributed by the late Mr. Santini with no claim to its being definitive; in compiling it, however, he tried invariably to choose the term most generally accepted in each language. Readers' comments and additions to the current list will be welcomed.
